FORMER PROPRIETOR OF COSMOPOLITAN HOTEL DIES AT HANNA

James S. Stevenson, former proprietor of the Cosmopolitan hotel here, died at Hanna on Monday, following a prolonged illness, at the age of 45. Mr. Stevenson was the fifth man in the Calgary district to enlist for active service in the Great War and was one of the few surviving members of the original Princess Pats. His activities during his residence in Calgary were extremely varied. Before the war, he was head waiter in the Palliser hotel and later went into partnership to operate Eugene's restaurant, a high-class place on Eighth Avenue. After his return from the war, he held a concession at Bowness Park from 1920 to 1925, when he came to Blairmore to take over the Cosmopolitan hotel, succeeding Max Belecky. For the past couple of years he has operated the Seymour hotel at Hanna.

The remains will be laid to rest at Calgary today.

Mrs. Stevenson survives him, living at Hanna.

A. P. P. OFFICERS GIVEN PROMOTION

Following the retirement of Inspector J. J. Nicholson from the Alberta Provincial Police, several promotions have taken place and have been announced from headquarters at Edmonton. Sub-Inspector Percy Tucker of the headquarters staff at Edmonton, has been promoted to the rank of inspector and will remain at the capital. Sgt. Marson, for some time at "A" division, Edmonton, is listed in the promotions to the rank of sub-inspector to succeed Sub-Inspector E. Radcliffe at Peace River. Sub-Inspector Radcliffe is transferred to Grande Prairie with no change in rank to take over the district formerly in charge of Inspector Nicholson. These promotions have been confirmed by Commissioner W. C. Bryan.

Sub-Inspector Radcliffe was formerly connected with the Mounted Police and A.P.P. detachments in the Crow's Nest Pass.

HEAVY PENALTIES IMPOSED IN LOCAL POLICE COURT

The cases against a local landlady, charged with having liquor for sale illegally, for obstructing the police in the discharge of their duty, and of keeping a bawdy or disorderly house, concluded in the local police court yesterday.

Conviction was registered against the accused on the former charge, with a fine of \$300 and costs, and on the latter charge \$100 and costs. A lady inmate was fined \$25 and costs, while three frequenters, who pleaded guilty, were fined \$5 and cost.

We understand that an appeal has been entered against at least two of the judgments.

The accused were represented by Mr. S. G. Bannan, with whom was associated Mr. Hodgson, of Vancouver. Sgt. Jones, of the A.P.P., conducted the prosecution.

Joseph O'Neill has been sporting a plaster over his right eye for the past week, having collided with a horse at the South Fork. We understand the horse escaped unhurt.

The "Big News" supporting cast comprises famous screen and stage players. The list includes: Charles Sellen, Tom Kennedy, Warner Richmond, Wade Boteler, Sam Hardy, L. Payne, Robert Dudley, "Cupid" Alsworth, Gertrude Sutton, Fred Behrle, Herbert Clark and Colin Chase. They render adequate support to the principals, the result being an even and artistic performance throughout. At the Bellevue theatre this week end.

DAUGHTER OF FORMER FRANK RESIDENTS PROMINENT IN MUSIC

The following item, copied from the September 1st issue of the Monroe Morning Post, Monroe, Louisiana, is of great interest to old timers of the Crow's Nest Pass.

"Miss Ellen MacKinnon, talented daughter of Mr. and Mrs. A. J. MacKinnon, is leaving the city on September the 15th for New York City, where she will study violin at the Juillard School of Music. Miss MacKinnon was the valedictorian of the 1928 graduating class of St. Matthew's high school, and for the past year she has devoted her time to the study of violin under Professor LaBouff. Miss MacKinnon is a splendid athletic type of girl and an expert swimmer. She passed successfully the Red Cross senior swimming test last year."

Miss MacKinnon was born at Frank, where her parents had resided but a short time after their marriage. Her mother was formerly Miss Katie Backus, and was brought up on a ranch at the South Fork, later occupied by the Lamour family.

Twenty years ago, Mrs. Backus, mother of Mrs. MacKinnon, was killed when a wagonload of lumber upset on a hillside near Burns, crushing her beneath it. In the same accident, Mr. Backus sustained a severe shaking up, while a hired man had a leg broken.

CORBIN MINE TO BE OPERATED

Following the announcement in the Herald a couple of days ago that the Corbin Coals, Ltd., of Corbin, B. C., had defaulted on interest on its bonds, payable on October 1, and that Roy G. Crocker, of Spokane, had been appointed receiver, it was announced in Spokane that this condition will in no way affect the operations of the company, which has paid all outstanding trade accounts, according to Austin Corbin, Jr., president of the company. The bondholders own a substantial majority of the outstanding stock.

Mr. Corbin stated his belief that the company will later be reorganized. He gave out the following statement:

"We received assurances from the principal holders of the company's bonds that in the event of a default by the company in payment of its bond interest, the bondholders will advance to the company sufficient funds to protect trade creditors and to enable the company to carry on operations without interference with relations which have existed between the company and its customers, and so as to cause no inconvenience to customers and others dealing with the company."

The company, with offices in Spokane, owns 15,000 acres at Corbin, B. C., on which are huge coal deposits. Coal is being mined and prepared by modern equipment recently installed. The property is served by the company's own standard gauge railroad 15 miles long connecting with the Canadian Pacific railroad at McGillivray, B.C. The company has several hundred men on its payroll—Lethbridge Herald.

DEATH OF MRS. CATONIO

The death occurred on Sunday morning of Maria, beloved wife of G. B. Catonio, one of Blairmore's business men.

Mrs. Catonio had been in poor health for a considerable time and the end was not unexpected. She was a native of Sunny Italy, coming out to this country about seven or eight years ago. A husband and six small children survive.

Requiem Mass was sung at St. Anne's church on Tuesday morning at 9 and interment took place in the Catholic cemetery that afternoon.

The Singing Fool

By HUBERT DAILEY
Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer, and makes her famous too. Molly and Al have a baby, Junior, whom Al adores. Molly becomes interested in John Perry, Al's close friend, and Perry begs her to leave Al. One night, after Al has taken Molly home from the Club Bongo, where he is part owner, she turns on him in rage, saying she doesn't love him. Al believes it is a mood, but when Molly fails to appear at the Club Bongo New Year's Eve celebration he calls her. A feminine voice answers, but he cannot hear the words, as the phone door flies open.

CHAPTER XVII

Once more Al seized the door of the phone booth and slammed it hard to stay shut this time. Then he turned back to the phone. He suddenly decided that he must make things up with Molly now—he would cast all pride aside and frankly beg her to do it.

"Sweetheart," he pleaded, "let's start the new year right. If there's anything I've done, I'm sorry. Let's make up."

There was a long silence, then the faint murmur of a feminine voice, whose words he didn't understand. A start of fear shot through him, but he persisted.

"I love you, Molly; you know how I love you. I can't bear to have you cold toward me!"

Now the voice at the other end was stronger; he suddenly realized it was not Molly's voice at all, but the maid's. He heard her quick, distraught words come travelling over the wire like bullets.

"Mrs. Stone is not here. She has gone away."

"Gone away!" Al exclaimed. What do you mean?"

"Yes, sir; Mrs. Stone has packed up her things and gone. She left a letter for you."

Packed her things! Left a letter!

WHEN a cold or exposure brings aches and pains that penetrate to your very bones, there is always quick relief in Aspirin. It will make short work of that headache or any little pain. Just as effective in the more serious suffering from neuritis, rheumatism or lumbago. No ache or pain is ever too deep-seated for Aspirin tablets to relieve, and they don't affect the heart. All druggists, with proven directions for various uses which many people have found invaluable in the relief of pains and aches of many kinds.

Aspirin is a Trademark Registered in Canada.

May Leave Lonely Island

But Proposition Not Favorably Received By Inhabitants Of St. Kitts

One of the most romantic and the loneliest places in Britain may soon be left to the sea-birds. This is St. Kitts, the little group of islands in the Atlantic, whose population has now dropped to thirty-eight. At the beginning of this century it was seventy-seven, and in 1851 it was 110. It has now been proposed that the island should be evacuated, and homes found for the inhabitants on the mainland. There are some hundreds of sheep on the island, but these are kept for their wool, and only used for food if the supplies run short. Sea-birds' eggs and young sea-birds are the principal articles of diet, with potatoes when the crop is good—which isn't always the case. The life of the islands is thus a hard one, and the fare is apt to grow monotonous. But the St. Kittians are attached to their homes and don't want to leave them. The population, if now very small, was smaller still 200 years ago, when, following a smallpox epidemic, the numbers of the islanders were reduced to thirty.

Al looked up from the letter with a cry of rage and pain. For the first time he saw the whole situation in one blinding flash. Molly not only failed to love him, but she loved someone else. And that someone was John Perry, the man who had dressed John—who, Al had believed, was his best friend. He realized now that Perry, whom he had trusted implicitly, had betrayed that trust from the first. Then another phase in the letter seemed to throb inside his brain—Molly said she had never loved him. She had lived a life from the moment she said she would marry him!

For a moment this sense of bitter rage and contempt "swasted" all other thoughts and emotions in him. The sense of being cheated, not only once, but consistently for days, weeks, months, years, made him long to turn on both Molly and John Perry and blast them with scorn.

He recalled the countless times he had overlooked Molly's petulant moods, selfish caprices and savage outbursts of anger, always believing that she was loyal and fine underneath.

Now, suddenly, his thoughts turned to Junior, and he read on:

"I was going to leave the baby, but he woke up as I was leaving. He held out his arms to me and, after all, he is more mine than yours."

"MOLLY!"

Al ran to the nursery. The dresser drawers had been pulled out and there were evidences of hasty packing all about. Some of Junior's toys lay scattered about the floor, among them his favorite, a woolly dog. His pillow had been thrown in the corner.

Al stood, dazed, gripping the foot-piece of Junior's bed. Where had Molly taken his boy?

For a moment Al was possessed by the determination to find Molly and Junior tonight—then he realized that the plan was futile. In this city of seven million persons and countless skyscraper hotels Molly and John Perry could have taken Junior, hiding away without doubt.

After that note Al did not doubt that Perry was with Molly. Perhaps even now they were speeding toward Boston in Molly's Rolls-Royce, or they might have caught the little limited for Florida several hours ago. He went quickly to the phone and called up the garage.

(To Be Continued.)

The Poor Man's Friend—Put up in small bottles that are easily portable and sold for a very small sum, Dr. Thomas' Electric Oil possesses power in concentrated form. Its cheapness and the varied uses to which it can be put make it the poor man's friend. No dealer's stock is complete without it.

Sulphate Plant

Large Plant To Be Erected About 60 Miles South Of Moose Jaw

Within the next sixty days, construction work is to be started on a large sulphate plant some sixty miles south of Moose Jaw. The plant will draw the sodium sulphate deposits from Horseshoe Lake, a short distance southeast of Orkney. By June of next year, it is expected to be in operation. The Barium Reduction Corporation of Charleston, West Virginia, is the company behind the undertaking.

Minard's Liniment For Warts.

The up-and-coming young man is pretty likely to succeed, unless he is up at four and just coming home—

All things come to those who wait—except the man who owes you money.

From Youth to Age

There are three trying periods in a woman's life when the girl matures to womanhood, when a woman gives birth to her first child, when a woman reaches middle age. At these times Lydia E. Pinkham's Vegetable Compound helps to restore normal health and vigor.

LYDIA E. PINKHAM'S VEGETABLE COMPOUND

GOOD IN EVERY WAY

Baby's Own Tablets Banish Babyhood and Childhood Ailments

A medicine that all mothers praise is good in every way—and that will quickly banish the minor ills of babyhood and childhood is the medicine to have on hand in case of emergency. Such a medicine is Baby's Own Tablets—they are helpful at all times. They are a mild but thorough laxative which regulates the bowels and stomach, banishes colds and simple fevers; correct constipation and indigestion; relieve colic and diarrhoea; and make the cutting of teeth easy.

Thousands of mothers use no other medicine for their little ones. Among them is Mrs. J. H. Bromley, Westmeath, Ohio, who writes: "I have four children and whenever any of them are ill I always use Baby's Own Tablets and have found them very every way. I would not be without the Tablets and would also like your little booklet 'Care of the Baby in Health and Sickness.' Baby's Own Tablets are sold by medicine dealers or by mail at 25 cents a box from The D. Williams' Medicine Co., Brockville, Ont."

Museum Of Antiques

Many Amusing Things Seen At Garden Fete In London, England

I heard of an amusing side-show held at a garden fete recently, writes "Looker-On" in the London Daily Chronicle. It was called a Museum of Antiques, but the nature of the exhibits may be guessed from the following specimens: A gigantic safety-pin, four inches long, which in the 18th century was used as a parting company; dangerous-looking daggers, over a foot long, labelled hat pins of 1809; a length of braid, one edge of which appeared frayed, but a skirt about five yards in diameter was also shown with this braid-braid sewn round, apparently to sweep up the mud of the streets; a lingerie blouse, fastening up the back with innumerable tiny hooks and eyes which, not being rustless, had marked the cambric with a trail of holes; and there were other sumptuous relics in favour with our mothers and grandmothers.

Courtesy Of The Road

Majority Of Drivers Have To Suffer For Carelessness Of Selfish Ones

The majority of drivers are without doubt, safe and considerate; but unfortunately all road users are at the mercy of an ignorant and selfish minority, who seem to imagine that a display of recklessness will be mistaken for an exhibition of proficiency. The cult of the cheap car has not been attended by a corresponding cultivation of good manners. Until the quick-tempered, self-centred motorist learns that there is a code of courtesy which must be adhered to on the King's highway, the innocent will continue to suffer for the sins of the guilty.

The ease with which corns and warts can be removed by Holloway's

Corn Remover is its strongest recommendation. It seldom fails.

Says Farewell To Regiment The evacuation by the second battalion of the Leicestershire regiment, the first complete British unit to leave the Rhineland, brought stirring farewells scenes. Practically the entire population turned out in the depressing downpour of rain to wish the soldiers goodspeed.

In Bolivia all the useful minerals belong originally to the state.

Little Helps For This Week

"For, lo, the winter is past, the rain is over and gone; the flowers appear on the earth, the time of the singing of birds is come."—Song of Solomon II, 11, 12.

The year's at the spring;
And days are at the morn;
Mornings at seven;
The hillsides dew-peaked;
The lark's on the wing;
The snail's on the thorn;
God's in His heaven;
All's right with the world.

—Robert Browning.

That is not an enviable nature that, hears no strange melodies appear on the earth, the time of the singing of birds is come."—Song of Solomon II, 11, 12.

Meteors Falling On Earth

Will Make Planet Heavier, Says Professor Of Observatory In South Africa

The earth is putting on weight, says Dr. Luyten, of Harvard Observatory, at Bloemfontein, South Africa. He said that the number of Meteors falling upon the earth was in the neighborhood of 80,000 a day. "No matter how small they are," he said, "the total weight of a crowd like that is going to count in the long run." He declared that the ultimate effect would be to slow down the rotation of the planet and lengthen the day. Since the change in the length of the day will not be more than one-thousandth of a second in a million years, there is plenty of time for geologists to think out some sort of reducing process.

The Oil For the Farmer—A bottle of Dr. Thomas' Electric Oil in the farm house will save many a journey for the doctor. It is not only good for the children when taken with colds and croup, and for the mature who suffer from pains and aches, but there are directions for its use on sick cattle. There should always be a bottle of it in the house.

The best light enters a room through the upper third of the window, the U.S. Public Health Service reminds us.

Fertilizer Brings Returns

Increase In Yield Of 11 Bushels To The Acre Is Reported

A place of land on the Pokran farm in Morden, close by the Canadian Pacific Railway station, was seeded this year with fertilizer by the experimental farm of the district. It yielded 11 bushels of wheat to the acre, as compared with a yield of 30 bushels in an adjoining lot, unfertilized. It is said that the fertilizer retains its value to the soil for three years.

Good for Cattle

Keep Minard's in your barn for distemper and colic. An excellent first aid for your stock.

MINARD'S "KING OF PAIN" LINIMENT

Actual Thickness

Ideal--Wherever alterations are required

IN many a fine, old-fashioned farm house there are rooms much larger than people today consider necessary. This available space can be partitioned off into extra rooms with very little work and at surprisingly small cost by the use of Gyproc-Fireproof Wallboard. And the Gyproc walls and ceilings of the new rooms will match the older walls—no matter how solid they are—for seasoned rigidity, good looks and permanence.

Gyproc is the perfect building material for all modern farm construction—for homes, barns, poultry houses, granaries and garages. It is pure rock—cannot warp, shrink or burn. With the use of joint filler and tape its sections meet in a tight, flush joint that insures a flat, smooth surface and takes any decoration.

Brood, ceiling-high sections of Gyproc can be nailed directly to joists and rafters, saving construction with a skeleton of lumber.

Beneficial decorative effect can be obtained by applying Alabaster, paper or plastic right over Gyproc walls and ceilings.

CANADA GYPROC AND ALABASTER, LIMITED

Head Office: Paris, Canada

MUST BE A PAYING BUSINESS

A seat (or membership) on the Montreal Stock Exchange, has recently sold for \$225,000.

And the purchaser naturally believes that he will carry on a business that will pay on this investment.

But how much benefit does the country derive from such a business?

The very large percentage of such a business is the commission made on selling margins—that is on betting (for it is nothing else) on whether certain shares will increase or decrease in price.

Of course dealing in stocks and shares is a perfectly legitimate business, but "margins"?

Is there any difference between betting on horse races, or even playing "fan tan" in a Chinese "joint" and "playing the market" on "margins"?

NAVY LEAGUE DOES VALUABLE WORK

Fred Cooke, provincial organizer of the Navy League of Canada, who has been in Blairmore and other towns collecting subscriptions towards the Sailor Magazine and donations for the Navy League, wishes to thank the citizens of this district for their assistance to the Alberta division.

The Navy League of Canada assists the widows and orphans of the

The Renaissance of the English Folk Dance

"Merrie England" and the spacious days of Queen Elizabeth with Maypoles and Merrie Dances are being given new life in the Old Country within the present century. The revival that Hyde Park, the great London rendezvous of rank and society, has been gay with annual festivals of folkdancers in colourful motion. A century of industrialism has not been sufficient to kill the ancient urge and Cecil Sharp, thirty years ago, was

astonished to see countrymen in an English village, fantastically appressed, come dancing through the snow one Boxing Day to the strains of a concertina. Eleven years later he founded the English Folk Dance Society which today has a membership of 15,000 with over fifty branches. Certified teachers from this society have been doing excellent work in Canada and will be encouraged greatly by the visit to this country

—Photographs by Debenham Longman; Photopress; and London Times.

of sisters of the best English dancers from the parent society under the leadership of Douglas Kennedy for a series of demonstrations at the forthcoming English Music Festival at the Royal York Hotel, Toronto, November 12-15 next. Lay-out shows groups of folkdancers; an English Folk-dancer; and Douglas Kennedy, leader of the English Folkdance Society accompanied by Joan Sharp, daughter of the founder, with pipe and labor.

men of the merchant marine. It also supports the Sailors' homes and institutes, etc., in all the large Canadian ports and looks after the welfare of the seamen when ashore. The League also trains young men and boys, helping to make better Canadian citizens of them.

The Sailor Magazine is fast becoming one of the leading Canadian magazines, and it should be in every home and institution in Canada. It is published monthly at \$2.00 per year. Subscriptions to the magazine and renewals, as well as donations for the League can be sent to V. J. Ward, secretary-treasurer, whose address is 2405 Centre Street South, Calgary, who will issue receipts.

LIGHTS FOR ALL VEHICLES

An incident occurred at High River on Tuesday night about midnight which illustrates the necessity of horse-drawn vehicles displaying lights, otherwise casualties will result. In this case the motorist was passing the Highwood Motors going south when he collided with Hall Bros.' milk wagon. There was a mist in the air which obscured vision and in the collision the milk wagon was damaged and Mr. Hall was thrown to the sidewalk and painfully injured, and the automobile also suffered damage. The injured boy was taken to hospital for treatment and he fortunately was not seriously injured. The car driver, while blameless to a certain extent, was obliged to pay costs of repairs to rig and auto and a fine amounting to \$75.00.

It would appear to us that horse-drawn vehicles should be obliged to carry lights after nightfall and changes should be made at once in the Vehicles Act in that connection. The law is not fair as it now stands.

—High River Times.

CHURCH MEMBERS TAKE NOTE

A few rules that might be worth noting, as they are sure to kill a church:

Don't come.

If you do come, come late.

When you come, come with a grouch.

At every service ask yourself "What do I get out of this?"

Never accept office. It is better to stay outside and criticize.

Visit other churches about half the time to show your pastor that you are not tied down to him. There is nothing like independence.

Let the pastor earn his money; he gets it easy.

Sit pretty well back and never sing. If you do, be sure you are out of tune and behind every one else.

Never pay in advance, especially for religion. Wait until you get your money's worth.

Never encourage the preacher; if you like his sermon keep mum about it. Many a preacher has been ruined by flattery. Don't let his blood be upon your head.

It is good to tell your pastor's failings to any stranger that may happen in. They might be a long time finding them out.

Of course you can't expect to get new members for the church with such a pastor as you have.

If your church happens unfortunately to be harmonious, call it apathy, or indifference, or lack of zeal or anything under the sun but what it is.

If you don't get your own way, make a tremendous protest that the church is run by a clique.

In cases of illness send for the doctor but not the minister; leave him to find out. Maybe someone will tell

him; if not, don't fail to broadcast his indifference."

These rules are sure to accomplish their desired ends.

—By One Who Knows.

ON PRINTING

The printer's calling is a peculiar business in that it is not only a trade but more. Of course, the first end is to make a living—a most worthy end; but much more than this is mixed with his trade.

There is a spiritual side which elevates the aproned and bedaubed printer to a place among the elect of progress and enlightenment.

The printer takes a blank sheet of paper, gathers the type, links the press, and delivers to his patron, not merely a piece of merchandise, but a thing now alive, speaking a message to the mind through the eye. The inanimate has been recreated into a spirit, a tongue of meaning has been given the once dumb sheet, and now the piece of paper, with aid of magic of printer's ink, does what the mind itself cannot do—carries a message of thoughts, hopes, and ambitions to other minds.

They say that the pen is mightier than the sword. They speak figuratively for they mean the printing press when they say the pen. And when the roll is called of the great souls, who, without brag or boast, have sped this old, awful world along the way of progress and civilization, perhaps the first in line will be that same aproned and bedaubed printer.

—William Lewis Judy.

Investigations made by scientists have established that Canadian salmon are higher in protein content than practically any of the meats and considerably higher than cereals or vegetables. The importance of this fact, from the dietary standpoint, is that proteins are not only sources of energy but they are builders of tissue as well. The Pacific coast salmon that is richest in protein content is the pink, and not, as may be popularly thought, the more famous sockeye, whose favored place in public opinion is largely due to its more attractive color. The Atlantic salmon ranks next to the Pacific coast pink in percentage of protein.

The making of the prohibition question a main issue in Ontario reminds us that right here in our own province the next election may see serious-minded people proposing drastic changes in the Government Liquor Control Act of Alberta. Rumors have already been rife, to the effect that the monopoly of provincial brewers, made possible by the Liquor Control Board, be abolished, and that the free importation of brewed liquors from other provinces be permitted with the idea that competition will be in the interests of the consumer.—The Manna Herald.

The height at which large hall-stones begin to form is between 15,000 and 40,000 feet above the ground.

An exchange says it is the female mosquito that bites, the male being a vegetarian, subsisting on plant juices and other liquid foods.

short cuts for SAVINGS

YOUNG MAN! Your life assurance premium includes a certain amount invested under the most advantageous conditions.

\$100 deposited in a Savings Account is at the end of One Year worth—\$103.
\$100 deposited on account of life assurance creates an estate in One Day of \$5,000.

A young man can, for an expenditure of approximately \$200 yearly, buy life assurance of \$10,000.

To accumulate the same money by ordinary savings methods, he would have to deposit \$200 each year for 32 years. (3% compound interest.)

During that period 20 out of every 100 men of his age have died; failures and reverses have ruined many more.

The current Sun Life dividend scale produces remarkable results, and will give you greater returns than you anticipate. See the local Sun Life representative.

ESTABLISHED 1770

PRIZE AWARDS AT THE
BELLEVUE-1929 EXHIBITION

(Continued from last week)

LADIES' SECTION

Plain hand sewing—1st and 2nd, Sturbant and Raymond.

Hand-Made bag—1st and 2nd, Sturbant and Raymond.

All-White embroidery work—1st, Mrs. L. Hagglund.

167-B—1st and 3rd; Mrs. A. McDonald.

167-C—1st, 2nd and 3rd, Mrs. McVicar.

All-white Roman cut work—1st, Mrs. J. Kerr; 2nd, Mrs. E. W. Christie; 3rd, Mrs. T. Nansen.

Embroidery work on silk—1st, Mrs. T. Nansen; 2nd, Mabel Rhodes; 3rd, Mrs. W. D. McDowell.

Collection of fancy articles—1st, Mrs. H. Harrison.

Colored embroidery work on white linen—1st, Mrs. C. Johnson; 2nd, Mrs. A. Rhodes; 3rd, Mrs. J. Curry.

172-A—A tie, Mrs. Harrison, Miss Emmerson and Mrs. T. Nansen.

Colored embroidery work on colored linen—1st, Mrs. Fisher; 2nd, Miss Emmerson; 3rd, Mrs. Johnson.

Applique—1st, Mrs. C. Johnson; 2nd, Miss Emmerson; 3rd, Mrs. J. Curry.

174-A—2nd, Mrs. A. Rhodes; 3rd, Mrs. T. Nansen.

Pair of towels—1st, Miss D. Radford; 2nd and 3rd, Miss B. Radford.

175-A—2nd, Miss E. Serra; 3rd, Mrs. C. Johnson.

Crocheted work—1st, Mrs. C. Johnson; 2nd, Mrs. W. D. McDowell.

Tatted work—1st, Mrs. C. Johnson; 2nd, Miss E. Serra.

Hand-embroidered cushion—1st, Miss M. Mottile; 2nd, Mrs. W. Bell; 3rd, Mrs. C. Johnson.

178-A—A tie, Mrs. Harrison and Mrs. Milnes.

Pair of pillow cases—1st and 2nd, Mrs. McVicar; 3rd, Miss D. Radford.

Fancy knitting—1st, Miss Emmerson; 2nd, Miss E. Serra; 3rd, Miss B. Radford.

180-A—A tie, Misses D. Radford and E. Serra.

Patchwork quilt—1st, Mrs. Harrison; 2nd, Miss Emmerson; 3rd, Miss E. Serra.

181-A—2nd, a tie between Mrs. Nansen and Mrs. C. Johnson; 3rd, Mrs. Harrison.

Work by patent needle—1st, Mrs. J. Olivier; 2nd, Mrs. M. B. Walker.

Plain knitted sweaters—1st, Mrs. Davidson; 2nd, Mrs. McVicar.

Fancy knitted sweater, silk—1st

A Hotel in Diamonds

Like a story from the Arabian Nights is the description of the miniature model of the Royal York Hotel, shown at the Toronto Exhibition this fall. The model is valued at over \$300,000 and in its construction there were utilized more than 15,000 22-karat quality diamonds. They were mounted on a framework composed

of satin wood covered with the finest wax. The miniature was drawn true to scale and measured 15 inches high by 12 inches broad.

Reflected from thousands of facets, the brilliant display of light, broken into all the colors of the spectrum, made this exhibit one of the most visited and most talked-of at the big Fall Fair.

Home-Made candy—1st, Mrs. Glover.

Jars of fruit—1st, Mrs. J. Olivier.

Jars of vegetable pickles—1st, Mrs. Glover.

Jars fruit pickles—1st, J. T. Clayton; 2nd, Mrs. Glover; 3rd, Mrs. Christie.

Canned vegetables—1st and 2nd, Mrs. Glover; 3rd, Mrs. Mundie.

Jellies—1st, Mrs. Glover.

Hand-Sewn dress—1st, 2nd and 3rd, Mrs. Glover.

Plain knitted scarf—1st, S. G. Knezacky; 2nd, K. Knezacky.

Embroidery work—2nd, S. Marnovich; 3rd, M. Tkachuk.

Plain knitting—1st, E. Chiaravanto; 2nd, K. Knezacky.

Fancy articles—1st, M. Rhodes; 2nd, K. Knezacky.

Fancy knitting—1st, Jessie Radford.

216—1st, M. Rhodes.

First and second prizes for special exhibits were awarded to Mrs. M. B. Walker, Mrs. Mundie and Miss D. Radford.

J. T. Clayton was awarded the Bellevue and District Horticultural, Industrial and Poultry Society cup and medal for outdoor-grown produce.

S. T. Humble was awarded the Royal Bank cup and medal for indoor-grown produce.

J. T. Clayton was also awarded the Reader cup.

J. Perneau was awarded the Bellevue cup and miniature for the best pen of poultry.

Mrs. C. Johnson was declared winner of the ladies' needlework section, and Mrs. R. Glover winner of the home cooking.

James Boyle was awarded the Red Trail Transportation cup.

SPORTS

100 yards—1st, W. Marcolin, Bellevue; 2nd, J. Ballock, Coleman; 3rd, E. Hallworth, Bellevue.

Old men's race—1st, J. T. Clayton, Bellevue; 2nd, Mike Kostyuk, Bellevue; 3rd, W. Bunton, Bellevue.

Ladies' egg and spoon race—1st, Mary McLean, Bellevue; 2nd, Mrs. Atkinson, Vancouver; 3rd, Mrs. Nansen, Bellevue.

Men's high jump—1st, Nick Kenneky, Hillcrest; 2nd, J. H. McLean, Bellevue; 3rd, S. Goodwin, Bellevue.

Quarter-Mile race—1st, W. Marcolin, Bellevue; 2nd, J. Kerr, junior, Passburg; 3rd, J. Radford, Bellevue.

Ladies' 75-yard race—1st, Mrs. Carpenter, Hillcrest; 2nd, Mabel Amos, Bellevue; 3rd, Isa Penman, Bellevue.

Half-Mile race—1st, J. Kerr, junior, Passburg; 2nd, J. Radford, Bellevue; 3rd, F. Hallworth, Bellevue.

Hop, step and jump—1st, J. H. McLean, Bellevue; 2nd, W. Marcolin,

Bellevue; 3rd, Nick Kenneky, Hillcrest.

One-Mile race—1st, A. Fournier, Frask; 2nd, J. Kerr, junior, Passburg; 3rd, J. Radford, Bellevue.

Bicycle race—1st, F. Hallworth, Bellevue; 2nd, L. Goodwin, Bellevue; 3rd, S. Radford, Bellevue.

Girls' race (16 years)—1st, Marie Lampy, Bellevue; 2nd, Annie Lithelard, Bellevue; 3rd, Isa Penman, Bellevue.

Boys' race (16 years)—1st, O. Cassaride, Hillcrest; 2nd, W. Ballock, Coleman; 3rd, W. Serra, Bellevue.

Junior road race (2½ miles)—1st, Jack Beal, Bellevue; 2nd, Billy McLean, Bellevue; 3rd, Alfred White, Bellevue; 4th, Luther Goodwin, Bellevue; 5th, James Conner, Bellevue.

In the children's races, 5 to 15 years, 33 entered, while a total of 323 children took part in the races of the day.

ANNUAL MEETING

The twelfth annual meeting of the Bellevue and District Horticultural, Industrial and Poultry Society was held during the week ending September the 28th, when the election of officers resulted as follows:

Honorary President—J. Charbonnier.

Honorary Vice-Presidents—Noble McDonald, G. A. Vissac and J. J. McIntyre.

President—William Kerr.

Vice-President—S. Berry.

Directors—S. T. Humble, J. T. Clayton, R. Glover, James Radford, J. Boyle, David Morris, James Cousins, G. W. Goodwin, B. Milnes and E. Cole.

Part of the business of this meeting was the completion of the distribution of prizes for the exhibition and sports.

The exhibition was declared a success in every particular, the entry list being as large, or larger, than previous years.

A Toast

"Jolly, the fellow who is down to-day. Give him a smile for his sorrow, For this old world has a funny way, And you may be down to-morrow."

IT'S all very well to listen to So-and-so's opinion of car values, but after all, the person whose opinion counts most is YOURSELF. It's all very well to sit back and wonder how Chevrolet can produce a really high-class Six . . . put a high-compression, valve-in-head engine in it . . . employ Fisher Body genius to create and build a series of magnificent bodies for it . . . equip it in the most detailed and up-to-the-minute fashion . . . and sell it at the price of a four.

The unmatched resources of General Motors, backing up Chevrolet's own tremendous facilities, explain all that, of course. But how much more satisfying to test it all out for yourself . . . behind the wheel of the new Chevrolet Six. That is why we urge you . . . no matter how many nice things you have heard or read about Chevrolet . . . to DRIVE CHEVROLET before you buy any car.

If you don't sell yourself a Chevrolet, nobody else is going to do it. Please don't feel you are obligating yourself in any way. It's a pleasure for us to place a Chevrolet Six at your disposal.

WARNING

TO
Motor Car Drivers
Carry Your Licences

The Vehicles and Highway Traffic Act, 1924, Amendment Act 1929, requires that every person operating a motor vehicle shall secure an operator's or chauffeur's licence and shall at all times while driving carry same. A penalty is provided for failure to produce such licences when demanded by an officer.

It is necessary, owing to the number of motorists who persist in driving without licences, that the police be instructed to require the production of these licences from time to time.

This law has been passed in the interests of safe driving, and the production of a licence is the only proof of ownership of one.

Carry your licence at all times and avoid inconvenience and prosecution.

Application cards may be obtained from any Provincial Police Officer, Clerks of the Court, dealers in motor vehicles, or from the postmaster in any town or village, and when completed should be forwarded to the Motor Vehicle Branch Office at either Calgary, Lethbridge or Medicine Hat, or to the Office of the Deputy Provincial Secretary at Edmonton.

RUSSIAN GRAIN WILL NOT AFFECT CANADA'S TRADE

Ottawa.—Canadian trade would not be imperilled by the resumption of trade relations with Russia by the Labor Government in Great Britain for some time, said last night Hon. J. L. Macdonald, secretary of state for the dominions in the Baldwin cabinet, said on his arrival here.

In the present disorganized condition of Russia under the Bolshevik regime, "there is no possibility," Mr. Macdonald said, "that there will be surplus wheat to export for some years to come. The Russian farmer is not yet raising enough for his own needs. Accordingly Russian wheat would not constitute a competitive element in the British market. Just now, however, the possibility of a resumption of trade relations between Great Britain and Russia in the near future could not be said."

Grant Priority to Dominion Taxes

Ottawa, Ont., Jan. 11.—The court of Canada, in an unprecedented decision, held this morning for Dominion taxes had priority over claims for provincial taxes. The appeal was taken on behalf of the attorney-general of Canada, and opposed on behalf of the attorney-general of Quebec.

The action arose out of a bankruptcy matter. Both the Dominion Government and the Quebec authorities had a claim against the bankrupt for taxes. There was not sufficient to pay both claims in full. It then became a question as to which claim took priority.

The trustee in bankruptcy, in his dividend sheet, gave priority to the claim of the Dominion and in that he was sustained by the judge, Mr. Justice Fanneton. The court of King's Bench held, Mr. Justice Gauthier dissenting, that both claims should rank equally. From that decision the Dominion appealed to the Supreme Court of Canada.

New Zealand Showing

More British Pictures

Ottawa Has Been Set By Regulations Of Government

Wellington, New Zealand. A motion picture exhibition of British moving pictures will be shown in New Zealand in the future, according to new government regulations. From October 1, exhibitors will be required to show a fixed quota of British films. The government says it has been surprised sample of both the output and silent films from British studios will be available during the coming year.

Grain Stored At Vancouver

Statement Shows Over Seven Million Bushels Put In Storage

Vancouver.—Grain in storage in Vancouver elevators has reached a total of 7,285,000 bushels, a figure more than five times greater than the corresponding one for 1925, according to a statement issued by the merchants' exchange.

The grain, which is mostly wheat, is being removed during the month of December, so that 1,026,933 bushels remain, however.

Famous Film Missing

London, Eng.—It has been announced that the famous war film, "The Battle of the Somme," is missing. The film is the property of Dr. Martin Mackay, who, as an army photographer, was in charge of the film. It was while he was in the theatre was removed for safety and now it cannot be discovered. The film was one of the most historic in the world.

Favors Canadian Flag

Nanaimo, B.C., after debating for more than an hour whether or not Canada had a distinct national flag of its own, the "British Columbia School Trustees' Association" decided that she had not and that the proper authorities should be informed that the association favored a distinctive emblem.

There are only about 40,000 Eskimos in the entire Arctic.

The United States now has more than 10,000 miles of lighted airways.

W. N. U. 1805

Will Start In December

Almost Completed For Air Mail Service

Ottawa.—The western air mail service will be inaugurated early in December and the tentative date for the first flight has been set for the second week of the month.

This announcement follows the statement of the Department of National Defence that the radio and light beacons and the emergency landing fields will be installed and ready for use by December 1. The Post Office department is fully prepared to put on the service at that date, and the Western Canada Airways, it is understood, have completed preparation and should begin the flying end of the service on short notice.

The bi-weekly air mail service from Edmonton north along the Mackenzie River will begin earlier than the main service across the prairie provinces. This northerly service will commence as soon as the winter season sets in and the planes can use skis with safety.

New Airway Mapped

London to Capetown Will Be Longest in World

London, England.—The longest airway in the world—an 8,000-mile route from London to the Cape—is being inaugurated by the Imperial Airways early next year.

As a result of the great 20,000-mile aerial survey of Africa, made by Sir Alan and Lady Cobham in their big Short Rolls-Royce flying boat, route through the heart of tropical Africa, passing over deserts and jungles, has been mapped out. Agreements have been made with the various governments concerned for supporting the air line, and preparations are now being completed for its opening. Passengers and mails will leave London every Saturday in a giant tripe-crew Armstrong-Siddeley air liner, and will arrive in Capetown nine days later, having flown by a combination of big air liners and all-metal flying boats.

Reparations Bank

Shunned By League

Committee Withdraws Resolution To Establish Initiative Collection

The League of Nations will not seek, for the purpose of establishing close relationship between the bank and the international reparations bank provided by the Young plan.

This became clear when a resolution envisaging the establishment of an intimate connection between the two was withdrawn from consideration in the Assembly's committee that deals with economic questions.

But its authors, Norway and Denmark, in withdrawing are believed to have gained part of their purpose. Their move was interpreted in some quarters as a signal by the countries not concerned directly with reparations payments that they will not be greatly pleased if the proposed bank seeks to assume too dominant a function in the economic life of Europe.

Discuss Coal Prices

English Mine Owners Consider Question For Canadian Trade

London, Eng.—A dozen large coal mine operators from various parts of the country met Rt. Hon. J. H. Thomas, at the treasury, to discuss the question of prices of coal for the Canadian trade. The minister for employment who has just returned from Canada pointed out the great possibilities of the Dominion for British exporters. It was stated the delegation was not officially representing the mining association of Great Britain, but it was noticed that Evan Williams, chairman of the association and W. Lee, its secretary, were among those present. No statement was issued immediately.

Denies Dirigibles Are Obsolete

London, England.—Emphatic denials of the statements in London newspapers that the dirigibles now under construction for the British Government—the R-100 and the R-101—were obsolete, was made by Commander Sir Charles Bursley, head of the Airship Guarantee Company which is building the R-100.

Birds Lured To Death

Toronto.—Lured by the brilliance of the beacon at Long Point, on Lake Erie, near Port Rowan, more than 800 song birds migrating to warmer climes for the winter, met death reeked, flying through a fog the birds were attracted by a bright light and dashed to death against the walls of the lighthouse.

Issue Interesting Report

Grain Commission Publishes Report On 1925 Flour

Winnipeg.—Low wheat, poor quality, lower flour yield, higher protein content; lower water absorption of the flour and excellent baking quality are features of a preliminary report on the milling and baking characteristics of western Canada's 1925 wheat crop, issued by Dr. F. J. Birchard, chief chemist to the Board of Grain Commissioners for Canada, and his assistant, T. R. Aiken.

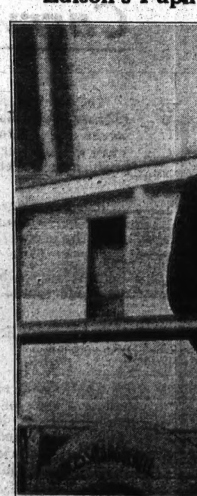

Milling and baking tests conducted at the Dominion Grain Research Laboratory, in Winnipeg, indicate that, on the whole, the milling yield is inferior, but the baking quality, grade for grade, is fully equal to if not superior to that of last year, states Dr. Birchard, in the report. The effect of frost and immaturity is not a serious consideration as was the case last year; practically all the wheat is sound and mature, but each grade contains an increasing number of undeveloped kernels and consequently the weight per measured bushel would appear to be the chief factor in determining the grade.

LABOR PARTY IN ONTARIO HAS ENTERED LISTS

Toronto.—The Ontario Labor party officially entered the lists for the coming election when it issued as the first step of its campaign, a manifesto giving the following by way of a minimum program: Unemployment insurance. Extension of the public ownership principle. A law to permit the election of police commissioners. A liquor referendum. Amendments to the Old Age Pension and Mothers' Allowance Acts. The manifesto criticizes Premier G. Howard Ferguson, leader of the Conservative party, for bringing on an election "long before it was necessary to appeal to the country. Putting an advocate of responsible government he has not thought fit to use the British method where the Premier announces on the floor of Parliament before the elected representatives of the nation that on a certain date an election will be held."

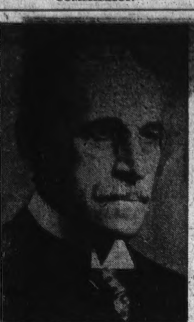

The Labor party has always stood for the discussion of the liquor problem free from party politics, says the manifesto. "It recognizes that the solution of the problem is the taking of the manufacture of liquor away from private capitalists. If there is to be government control, it must not only be control of the retail sale of liquor but also of its manufacture. It is therefore of the opinion that in a question like the liquor issue, where centuries of prejudice exist on both sides, that the question should be submitted to the people in the form of a referendum."

Edison's Pupil Visits Canada

Walter Huston, Seattle boy who won the special prize donated by Robert Edison, for research and inventive potentialities, was a visitor to Canada recently, when he took Canadian Pacific coast steamship "Princess Margaret" in a round trip from his home city to Victoria and Vancouver. Huston who is likely to become a second Edison, will devote his life to scientific research, he says, following the example of his famous friend and mentor.

CHAIRMAN OF ROYAL COMMISSION

Philip D. Ross, proprietor of the Ottawa Citizen, has been appointed chairman of the royal commission, announced by Premier Ferguson, which will study the welfare needs of the province.

Will Remain In Canada

No Truth In Rumor That Sir Henry Thornton Was Leaving

Ottawa.—Sir Henry Thornton will remain in Canada as president of the Canadian National Railways. Any doubt on this point was settled by Premier Mackenzie King, following a recent meeting of the cabinet. In the absence of Hon. C. A. Dunning, minister of railways, who is in the West, the Prime Minister was unable to say whether or not a renewal of Sir Henry Thornton's contract with the government had been signed.

There was no question, however, about Sir Henry remaining in Canada, the prime minister said.

Recently there have been rumors that the president of the Canadian National might go to England.

Ban Religious Holidays

Soviets Dispense With All Religious Holidays, Including Sundays

Moscow.—All religious holidays, including Sundays, are abolished under the new 24 hour system of labor introduced throughout the Soviet Union. Workers are given one day of rest every five days.

The only holidays not abolished are October 23, anniversary of the October revolution; January 9, anniversary of Lenin's death, and May 1st and 2nd, international days of labor celebrations.

Tariff Board Application

Ottawa.—Initiation of investigations based on ten or more new applications will feature the first full sessions of the tariff advisory board which will open on Tuesday, October 29, Chinaware, glassware, linoleums and wall papers are among the commodities that will come under review at the hearings, which will extend over two weeks.

Colony For Doukhobors

Two Hundred and Fifty Members Of

Transferred From Jail To

Porto Rico In a former Christian community lumber camp which is situated some 15 miles south of Nelson. Last Friday when these sons of Freedom were camping on the outskirts of the city, Peter Vergin offered this old camp site to the Doukhobors as a permanent habitat.

Starting early in the morning trucks and buses carried loads of prisoners from the jail to Porto Rico until 4 p.m. when all the Doukhobors had been safely landed. Each bus in addition to the prisoners, carried a couple of deputies to preserve order if necessary. This measure was not necessary.

When all had arrived at the camp it was noticeable that many of the Doukhobors directly started to pick out living quarters from among the camp buildings.

The majority of the buildings at the camp are windowless and doors are the more industrious of the Doukhobors began to repair their future homes to protect them against the cold nights that are setting in.

Balloon Found Unmanned

Believed To Be One Piloted By French Flier

Paris.—A tragedy of the air was indicated as a balloon without passengers floated to the ground near Kamence, Yugo-Slavia.

The Aero Club of France was advised the balloon carried the club's flag, and that blood spots were found on the torn basket. An altimeter registering 5,000 meters (about 16,000 feet) was found by peasants nearby.

It was believed the balloon was the one in which Pilot Nuger left St. Cloud, near Paris, to compete in the Amont-Tellville Cup race. The place where the bag was found is 850 miles from Paris.

Convicted Of Manslaughter

Mrs. Pantagos, Wife Of Theatrical Magnate, Found Guilty By Jury

Los Angeles.—Mrs. Lois Pantagos, wife of the theatrical magnate, was convicted of manslaughter by a jury which heard her trial on a charge of second degree murder.

The jury of five women and seven men made no recommendation for leniency. The sentence for manslaughter is fixed by California law at from one to 10 years in the penitentiary. Three women jurors wept as the verdict was read.

Mrs. Pantagos was charged following the death of a Japanese gardener, killed when their automobiles collided last June.

GRAIN EMBARGO IS REQUIRED TO EASE CONGESTION

Winnipeg.—Serious congestion in the lake head's mammoth grain elevators brought suggestions that the placing of an embargo on western grain shipments appeared to be the only remedy to the situation.

Fort William and Port Arthur terminal elevators, with a storage capacity of 86,000,000 bushels today are housing practically 70,000,000 bushels, leaving a comparatively small storage space through which to move the incoming crop.

Lack of demand for Canadian grain in the world markets, and the resulting congestion at Montreal, is responsible for the situation at the head of the lakes, and railway authorities here intimated that the placing of an embargo probably will be necessary.

E. B. Ramsey, chairman of the board of grain commissioners, commenting on the situation, said an embargo seemed to be the only remedy.

A similar situation arises every fall pointed out the grain board chairman. He indicated, however, that last year at this time the shortage of cars to handle the heavy prairie crop had itself acted in the nature of an embargo, preventing progress of grain to the lake head.

This season, with sufficient cars available to move the wheat east of Port Arthur and Fort William elevators are reported plugged almost to capacity, while harbor conditions do not permit of an early rush east of lake boats.

Exhibiting Canadian Pictures

Ottawa.—The pictures from the National Gallery of Canada will be sent to London shortly as the Dominion's contribution to the exhibition of Italian art, which will be held at the Royal Academy early next year. The exhibition is to be one of the most comprehensive ever held, embracing Italian art from the 12th century to the present day.

Price Appoints Air Pilot

London.—E. H. Fielden, of the air force officers' reserve corps, has been chosen personal air pilot to His Royal Highness, the Prince of Wales. In his new post, Fielden will fly the plane owned by the Prince. This is the first time a member of the royal family has had an air pilot attached to his establishment.

Manitoba Has Large Surplus

Winnipeg.—A surplus of \$2,005,062 for the fiscal year ended April 30, 1925, was announced by the provincial government through Hon. W. J. Major, attorney-general, in the absence of Premier Bracken, who holds the portfolio of provincial treasurer.

Adjourns Tenth Session

Geneva.—The assembly of the League of Nations on September 25 adjourned its tenth annual session, which delegates from more than fifty nations hailed as the most constructive and progressive during the ten years of existence of the league.

NON-PREFERRED ENTRY RECEIVES FURTHER CUT

Ottawa.—The number of farm laborers which transportation companies will be permitted to bring into Canada from non-preferred countries of Europe will for next year be further reduced by 25 per cent. The present provision to encourage immigration from the British Isles will be continued including the two pound assisted passages.

Representatives of the Canadian Pacific Railway and steamships, the Canadian National, the London & New Company, and several ocean shipping companies recently spent a day in conference with Hon. Robert Forke and officials of the Immigration Department, laying plans for next year's movement. Although the transportation companies had hoped for greater scope in bringing out farm laborers, the decision of the minister seemed to have been fairly acceptable.

A year ago in order to reduce the influx of immigrants from Central Europe the number of farm laborers which were allowed from non-preferred countries was limited to one-third the previous year's total. This resulted in 10,000 less entering Canada. While the restriction was even greater than this year, the requirement that the movement be completed by May 31 is not so far being continued. And there is also more latitude in the case of those who follow the countryman here willing to assist them in getting located on the land.

At the conclusion of the conference the following statement was issued by the department:

It was agreed that British immigration will continue to receive every possible encouragement. A renewal of the assisted passage agreement for certain classes of British migrants, which expires at the end of the present calendar year, was recommended. These classes include families for land settlement, houseworkers, and juvenile immigrants moved under provincial government or recognized societies auspices.

No Canadian Race

But Bureau Of Statistics Accepts "Nationality-Canadian"

Ottawa.—There is a Canadian nationality but no Canadian race, any government form filled with nationality as "Canadian" is accepted, it was learned at the Dominion Bureau of Statistics.

Complaint was made in Toronto of a father who three times entered his child as Canadian and the form was returned, Ottawa being blamed. It is pointed out here that the vital statistics forms are made to the provincial authorities and not to Ottawa.

If the form was returned because the new baby was termed Canadian, it must have been returned by the provincial authorities. The Bureau of Statistics accepts "Nationality-Canadian," but also seeks racial origin, which has nothing to do with nationality.

THREE UNITED CHURCH LEADERS COMING WEST

Three men whose lives root far back into the life of Western Canada are coming west this month to represent the leadership of the United Church of Canada, at the large conventions of western laymen.

They are: Rev. William T. Gunn, M.A., D.D., moderator of the general council; Rev. James Endicott, D.D., L.L.D., ex-moderator and secretary of the board of foreign missions; and Rev. R. B. Cochrane, M.A., D.D., the new secretary of the board of home missions.

Rev. Dr. Cochrane's father was Rev. William Cochrane, D.D., for a generation the convener of the home missions committee of the Presbyterian Church of Canada and the underswearing brother of Dr. James Robertson in setting the newly golden west of the homesteader for the church.

Dr. Gunn was home missions secretary of the Congregational Churches from 1906 onwards and has made a fine contribution to home missions by means of his books and articles on this problem, especially as it relates to western development.

Although known chiefly as a foreign missionary and an advocate of world extension of Christianity, Dr. Endicott came west in the eighties and served on the home fields in Norman, Lethbridge and Southern Manitoba when the west was young.

With Rev. J. W. R. Netram, of Central India, these speakers are to leave Toronto for the west on October 14th and open their deputations work at Winnipeg on October 16th and 17th when a large assemblage of Manitoba laymen gathers for two days of conference. They will be in Calgary for a similar conference of laymen on October 29th and 30th.

Keynote messages on the whole range of church life and activity are expected from this group of representative leaders and local committees in all centres are perfecting arrangements for the entertainment of large delegations from all presbyteries in the four western provinces.

Mrs. Bannan and son Bobby are in Lethbridge this week.

We cannot appreciate Val's idea of an airport.

A baby boy arrived at the home of Mr. and Mrs. Harlan Lank, on the North Fork.

Mr. G. C. Cruickshank, of Hillcrest, is attending the world series baseball at Chicago.

Miss Peggy Cole has left Bellevue for Victoria, where she will reside for a time.

Premier W. L. Mackenzie King will arrive in Edmonton on November 7th, and Calgary on November 21st.

The Junior Guild of St. Luke's church will hold a tea in the Elks' hall on Saturday, October 19th, from 3 to 6 p.m.

A dance will be held in the Burnis school house tomorrow night, under auspices of St. Stanislaus Catholic church.

Mrs. Fred Padgett and two children have returned to Bellevue from a six months' visit to the old home in Yorkshire, England.

The infant child of Mr. and Mrs. Harold Pinkney has been very ill for the past couple of weeks, but is now showing slight signs of improvement.

Jimmy McLarnin, of Vancouver, knocked out Sergeant Sammy Baker, New York veteran of many a ring battle, in the first round of their ten-round bout at New York last night.

Mr. Hodgson, prominent Vancouver lawyer, who was defending counsel in a number of police court cases here, returned west by this morning's train.

WANTED

Parties to knit for us at home by Machine or by Hand. Particulars, enclose stamp

THE HOME KNITTING CO.

89 Coleman Ave., Toronto

BLAIRMORE UNITED CHURCH

Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

Services for Sunday, October 13th,

held in the Church—

SENIOR SCHOOL at 11 a.m.

JUNIOR SCHOOL at 2 p.m.

PUBLIC WORSHIP at 7.30 p.m.

The pastor's subject will be: "Painting pictures, the pictures of life, on dirty canvas." This subject is suggested by a conversation that takes place between Sanela and Mr. Twig, two principal characters in G. M. Allenborough's new book, "The Rich Young Man." At the close of the service the Sacrament of the Lord's Supper will be administered; also reception service for new members.

THE GEORGIAN SINGERS will be in the United Church, Blaimore, Friday, October 11th, at 8 p.m. They have some of the best musical talent available and have learned how to mix good comedy with first-class singing and instrumental music. The price has been set as low as possible so that every one can enjoy this evening. Prices 50 cents and 25 cents. The proceeds will be in aid of the church improvement fund.

SUNDAY, OCTOBER 27th, is the day set for the official re-opening of the church and dedication of the new basement. Rev. J. W. Melvin, D.D., of Lethbridge, will conduct worship morning and evening and on Monday, October 28th, a church supper at 6 p.m.; lecture by Dr. Melvin at 8 p.m., also a short musical programme is being arranged by the choir leader, Mr. A. Hadwell.

Work on the church has progressed as far as planned to proceed this winter. It is the intention of the official board to continue the work on the new school rooms at the rear of the church, as soon as the spring opens up. In the meantime, the new basement will give added facilities for the young people's work and the church will be bright and warm for the regular church services.

ST. LUKE'S, BLAIRMORE

Sunday, October 13—Evening at 7 p.m. Harvest Festival. Contributions of flowers, fruit and vegetables will be gladly received at the church on Saturday, between 2 and 6 p.m.

St. Luke's Day, October 18—A tea will be held at the residence of Mrs. J. B. Wilson.

—A. D. CURRIE, Incumbent.

COWLEY HAPPENINGS

Mrs. A. S. Donald has returned from an extended visit to her old home in Scotland.

Miss Doris McEwen, who is employed with the Royal Bank here, is now taking a two-weeks' holiday. She motored to Carmangay on Monday, to pay her sister Jean a visit.

Paul Potapoff, who sustained a broken rib as a result of colliding with a car while driving his own car on Sunday, is progressing favorably and will be around again in the course of a few days.

A benefit dance was held at the home of Mrs. George Porter on Friday night, when the neat sum of fifty-eight dollars was realized. On this occasion a large crowd gathered. Splendid music was furnished by local talent and a real jolly time is reported.

On Monday night, a whist drive was held in the Parish Room, under the auspices of the Women's Auxiliary. The prizes were won as follows: ladies' first, Mrs. McEwen; second, Mrs. Murphy; gent's first, Robert Alexander; second, Eddie Smyth. Refreshments were served.

Mrs. J. B. Wilson will be hostess at a tea, at her home on State Street east, on St. Luke's day, Friday, October 18th, from 3 to 6 p.m. Also home cooked dainties. Proceeds for St. Luke's church.

Doc Lillie made a special trip over the Old Crow and adjacent mountains with his movie camera on Sunday last. He was accompanied by a noted Calgary aviator, as pilot. No. the pictures are not talkies.

The man who directed "Big News" is Gregory LaCava, who achieved fame by his direction of Richard Dix in many of his screen successes. A trained newspaper writer, he was well qualified to direct this virile newspaper story.

The homestead residence of J. Angus McDonald, at the South Fork, was completely destroyed by fire on Tuesday morning with all its contents. The origin of the fire is unknown, but is believed to have started by a rat coming into contact with a match.

"I say, old chap, what's the difference between abstract and concrete?"

"Well, when my wife promises to make a cake, that's abstract. When she makes one, it's concrete."

Robin Hood FLOUR

For All Your BAKING

How Did The Baby Get It?

A Scotchman called up the doctor in great agitation.

"Come at once!" he said. "Ma wee child has swallowed a saxepe!"

"How old is it?" asked the doctor.

"1894!" replied the canny Scot.

Answers.

Proof in the Lifting

"No, Tommy, you can't have any cake. It's too heavy."

"No, mother, I can lift it."

The London Daily Express remarks: We don't know what has become of the old-fashioned girl. Years ago she was seen entering a beauty parlor.

Ruth: "I noticed your husband was frothing at the mouth this morning. He must have a terrible temper."

Winnie: "It's not that. I fed him Lux this morning by mistake, instead of corn flakes."

Conductor (to fat lady trying to board bus): "Hey, Missus, if you had eaten more yeast when you were young, you would be able to rise better."

Fat Lady: "Yes, my boy, and if you had eaten more yeast, you would be better bred."

The Fernie school board has granted salary increases to a number of teachers.

Healthy Children are Always Happy

The nutritive value of Corn Syrup is recommended by doctors—it's known to be the healthy food for everybody.

Markets For Western Products

The story of the marketing of the grain of the western provinces of Canada is a long, complicated but exceedingly interesting one. It is a record of one acute problem arising in succession to another as the years passed and conditions both at home and abroad brought about radical but inevitable changes. It is a history filled with heroic efforts, the breaking new trails, the grappling with the seemingly impossible, in the endeavor to solve first one problem and then another, thus removing the difficulties that lay in the path to successful, prosperous western agriculture.

Twenty-five or thirty years ago the chief cause of complaint was the then existing elevator companies, closely linked with the transportation companies. The passage of the original Canadian Grain Act, with its provision of the leading platform, went a long way towards the removal of that grievance.

Then, with rapid increase in settlement and consequent production in the early years of the present century, lack of railway facilities resulting in annually recurring blockades, caused enormous loss to the producers. The great era of railway building largely solved that problem.

The elevator problem, involving questions of grading, dockage, charges for services rendered, depressing of prices, etc., still remained acute. The result was the inauguration of Government-owned and operated elevators in some provinces and co-operative elevators in Saskatchewan, the creation of the United Grain Growers, and constant revision and amendment of the Canada Grain Act.

Following the war, and the enormous increase in acreage brought under cultivation by the Greater Production campaigns, coupled with the complete demoralization of world trade, falling prices, and lack of credit and buying power in Europe, and in particular, the abandonment of the wartime Wheat Board, western grain growers found themselves in a serious predicament, faced with prices barely equivalent to, even below, the cost of production. With courage and unsurpassed initiative western farmers grappled with the problem and worked out their own salvation through the organization of their great Wheat Pools.

Conditions improved, marketing became more scientific, prices somewhat more stabilized. Then came the crop of 1928, the largest in volume in the history of the west, but, owing to climatic conditions, one of poor quality. Within two years, too, the "combine" and the motor truck had come very largely into use, with the result that the grain poured into the elevators not only in unprecedented volume, but with unprecedented rapidity. The building of good market roads likewise served to speed up deliveries.

The net result was a situation which, while providing employment to a huge army of harvesters, and an enormous volume of traffic for the transportation companies, left little margin of profit for the grower of the grain. Complaint was almost universal against the Board of Grain Commissioners, it being very generally felt that it was "raise up the wheat crop" and had not made even reasonable efforts to cope with the situation which had developed. The old Board was replaced by a new one which has the confidence of the farmers and from which better things are expected.

Beneficial as the operations of the Pools have been, there has been developed in some quarters, and notably in Saskatchewan, a feeling that the maximum benefit to be derived from united selling cannot be realized until every bushel of wheat grown in Canada is marketed through one agency, namely, the Pools, and that human nature being what it is, this cannot be secured through wholly voluntary efforts, and consequently the minority should be compelled by legislation to throw in their lot with the majority and made to deliver their wheat to the Pools.

While this agitation is being carried on, a new situation has developed. Owing to a large carry over from the 1928 crop, and the rapid harvesting and delivery to the elevators of this year's crop, and with a manifest reluctance on the part of European buyers to purchase Canadian wheat at a price commensurate with its value and production cost, there is practically no movement of grain out of Canada at the present time. The result is that all forms of storage in this country are, at the time of writing, almost filled up, and embargoes or shipments in effect.

The situation is believed to be only a temporary one, and that, as soon as other wheat exporting countries, now selling below the price which Canada demands, are out of the market, there will be a call for Canadian wheat and a price obtainable acceptable to the Canadian producer.

However, with the steadily increasing size of the Canadian wheat crop and increases in other countries as well, western farmers must inevitably take a keener interest than ever before in the whole subject of finding and developing export markets for Canadian products. The possibilities of the awakening Orient call for close investigation and expert study. Such subjects as the effect of Canada's Government-owned merchant marine, operated at a loss, in opening and developing new markets require careful consideration as to whether the direct operating loss is not more than offset in national gains and profit through the development of export trade.

Western farmers as never before will find it necessary in their own interests to devote attention through the medium of their organizations to world problems and conditions, the trend of economics, and the effect which machinery and new channels of transportation must assuredly have upon world food production, distribution and prices.

The orange industry is one of the largest users of trade marking machines.

What most people call indigestion is usually excess acid in the stomach. The food has soured. The instant remedy is an alkali which neutralizes acids. But don't use crude herbs. Use what your doctor would advise. The best help is Phillips' Milk of Magnesia. For 50 years since its invention it has remained standard with physicians. You will find nothing else so quick in its effect, so harmless, so efficient.

Indigestion

One tasteless spoonful in water neutralizes many times its volume of acid. The results are immediate, with this fact, you will never deal with excess acid in the crude ways. Go easy—now—why this method is supreme. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any druggist.

London Suffers From Drought

According to Records, Condition worst in Seventy-One Years
London is experiencing the worst drought on record in 71 years, a 32-day lack of substantial rainfall eclipsing the dry period of the summer. The Lea River, supplying a considerable area of eastern and northeastern London, is beginning to fall, causing acute anxiety.

Garden watering from hoses or outside taps was stopped by the authorities several months ago and the special assessment levied for this service will be reduced by half at the next date of payment, the water board promises.

ST. VITUS DANCE

A Disease Of The Nerves Which Must Be Treated Through The Blood

St. Vitus Dance is a disease of the nerves brought on by a morbid condition of the blood. It is a common disease with children, but sometimes attacks adults. The treatment of this trouble is to cleanse the blood through the blood, because rich, red blood is the life food of the nerves. In this way Dr. Williams' Pink Pills have proved beneficial in even the most severe form of this trouble, because the most vital and colorful events which appeal to the imagination of the child, and this without diverging from the truth, but as it has been written particularly in the interest of pupils in Western schools.

Extreme care has been taken in the selection of the most vivid and colorful events which appeal to the imagination of the child, and this without diverging from the truth, but as it has been written particularly in the interest of pupils in Western schools. The story of Western development receives more descriptions. The authorities have studiously avoided recitation of phrasing, the use of hard words, and verbosity, all of which will be to the benefit of the children for whom it is written. It is not written for the historian or erudite person as is readily seen from the sketchy character of constitutional changes.

Its main educative feature lays in the vivid descriptions of early pioneer life. The dangers, struggles and tragedies of the pioneers who laid the foundation of this great nation, which cannot be too emphasized, as we are all prone to ignore the sacrifices of those who have made our way of life.

To forget that but for their supreme daring, patient endurance and superb courage the conditions which prevail today, to say nothing of the conditions of this country, would not have been attained.

Miss Palk has produced something better than a text book, she has produced a record of outstanding analogies which will inevitably appeal to the schoolboy's imagination, and prove both an incentive and fundamental ground for a more exhaustive study of Canadian history, and after all the greatest principle in education is to credit a desire for knowledge, to the tender thought and pour fresh instruction over the mind.

The avoidance of dates and tedious details is more of an advantage than otherwise. By taking periods instead of fix the main features of transporting events and the chief characteristics of the participants in them more surely in the minds of children.

So doing she has reached the happy thought of the authors, the sympathy and understanding of her readers, which of necessity must fill them with pride of ancestral triumphs and achievement, and incidentally a glow of patriotism. Who shall say that some of the children for whom the book is written may not be stung with some thought whose splendour may impel them to prove as great, if not more heroic, than those characters whom the authors has depicted with a sure pen and clarity of insight.

Great thought and intense feeling come like instincts unawakened to those who rise above mediocrity. Yes, certainly, Miss Palk has given to the schools something more than a few pages from Canadian history, something more than a text book, a compilation of the most inspiring incidents in Canada's annals, vivid character sketches which impel them to serve upon the youthful mind, and best of all a well spring from which her readers can draw inspiration.

The book is splendidly illustrated, and as pictures not only have a great appeal to the young, but are long remembered, they will materially help forward the objective of the authors.

Contrary to a popular belief, automobile tires wear better in cold weather than in hot.

A Reliable Antiseptic—Minard's Liment.

History In Narrative

'Pages From Canada's Story' Of Particular Interest To Pupils In Western Schools

'Pages From Canada's Story,' by Helen Palk, is bound to be a considerable ally to students of history, particularly to those in our public schools round the age of eleven.

Homeopaths claim that their formula and method of taking medicine is more advantageous to patients than the prescriptions of allopathists, and Miss Palk can certainly claim that placing before pupils of schools, in Canada, outstanding events in the history of Canada in narrative form will create a more lasting impression upon their minds.

A great Frenchman, Rousseau, stated that "the book which, to my thinking is the happiest treatise on natural education is 'Robinson Crusoe,'" and it is apparent that the author of this little book realized that children will absorb those incidents connected with the vital events of our country's history, simple portrayals of character, and graphic descriptions of locations, more easily than the most carefully chosen events, wearisome through sameness, tedious in its attempts at analysis and redundancy of phraseology.

In these word pictures, the authors has successfully endeavored to present the essential facts clearly before the eyes of the reader, which instantly photographs them upon the mind, thus aiding the memorizing of them.

Extreme care has been taken in the selection of the most vivid and colorful events which appeal to the imagination of the child, and this without diverging from the truth, but as it has been written particularly in the interest of pupils in Western schools.

The story of Western development receives more descriptions. The authorities have studiously avoided recitation of phrasing, the use of hard words, and verbosity, all of which will be to the benefit of the children for whom it is written. Delegation Sails For Japan

Party Has Gone To Tokyo For Preliminary Conference

Just what will loom up as the chief subject for consideration at the forthcoming meeting of the Institute of Pacific Relations at Kyoto, Japan, cannot be known until preliminary discussions are held, said Lord Hallahan, on his arrival at Ottawa. Lord Hallahan heads the British delegation, several members of which spent a few days, as guests of Their Excellencies the Governor-General, and Lady Willingdon, before proceeding west to Vancouver. They sailed for Japan on October 3.

Mr. Roy Lighthall, Milford, Ont., writes: "It became very ill; lost my appetite, had cramps, diarrhoea, and severe pains in my stomach."

"I purchased a bottle of D. F. Fowler's Wild Strawberry and before I had taken half of it I was completely relieved, and have had no symptoms of the trouble since."

"I cannot praise 'The Extract' too highly, and will be without a bottle of it in the house."

"It is pleasant to take and acts very quickly."

"My brother had the same experience with it as I had."

"Dr. Fowler's" has been on the market for the past 34 years; you know when an attack may come and they know that to struggle unaided is vain. With Dr. J. D. Fowler's Asthma Remedy at hand, however, they can say good-bye to their enemy and enjoy life again. It helps at once.

Religion makes a mighty poor abroad after it has been worn as a cloak.

A Wonderful Machine

Transforms Music Into Ribbon Of Light and Responds To Every Change

Musical students are given a pattern of a perfect sound and attempt to reproduce it in the light.

"It seems certain," said Mr. White, "that improvement can be attained in this way, but it also seems certain that no amount of effort will transform a good clerk into a great artist, for one of the things demonstrated is that each artist produces patterns as individual as his signature, and although these patterns fairly well, apparently no one else can reproduce them exactly."

The Oslo is designed to calibrate the harmony of musical instruments, and detect imperfections, whether in tones from wires or strings, or reverberations of sounding boards. Mr. White, who is a sound engineering boards sometimes reverberate better at some points in the scale than others.

Off the coast of China the sea is quite yellow. This is because tons and tons of yellow mud flow into it continuously from the great rivers of China.

Local and General Items.

Mr. Avery, piano tuner, was in town this week.

Miss Trono, of Hanf, is a holiday guest of Mr. and Mrs. S. Trono here.

Dan Lucy, auditor for Distributors Limited, was in the Pass district this week.

Don't miss the Georgian Singers, at the United church tomorrow (Friday) night at 8 o'clock.

The local lodge of Pythian Sisters will hold their annual bazaar on Wednesday, November 20.

The Drumbeller Elks' Holding Company, Limited, has been incorporated with an authorized capitalization of \$50,000.

Mrs. H. McLeod and family arrived on Tuesday from Coleman, and will reside here in the future.—Mercoal Notes in Edson-Jasper Signal.

Very little business, beyond the passing of a considerable number of accounts, was transacted at Monday night's meeting of the town council.

A valuable horse belonging to E. J. Pezzi became tangled in the C.P.R. bridge across Lyon Creek on Thursday night last and had to be shot to be extricated.

Despite the quiet times with the mines, houses are at a premium in East Blairmore. A large number of families have moved into town from other points of late.

For a time travelling on the highway was fairly safe. Now they are gradually reverting to the one-arm system. Here's hoping the climate will become warmer.

Members of the local school board paid a visit of inspection to the schools during the week and expressed themselves as highly pleased with the present staff and operation.

The Hanna Herald remarks: The hide of a hippopotamus is about two inches thick. Few breakers of our traffic laws have skins any thicker, but theirs are more difficult to get under.

Since the announcement has been made that Isabel MacDonald, eldest daughter of the British Premier, is at large in the United States, we don't want to go there and have postponed our visit to Uncle Sam for a while.

One of the dare-devils to take the trip to the air on Sunday last stated upon landing back to terra-firma that he remembered nothing about the trip. That's the class of guy that should be taken up in the air and left there.

Mr. Wm. Cole, of Bellevue, will attend a meeting of picture theatre owners from smaller towns in Calgary tomorrow, to consider the prohibitive cost of talkie films. The extreme high price of this class of film is threatening the extinction of the smaller town houses.

The seating capacity of the Elks' hall was taxed to the full last Sunday night, and some went away unable to find seats. The occasion was a visit to the United church of Dr. Fraser Smith, M.D., veteran missionary to China and later India. Dr. Smith spoke in all the Pass towns on Sunday and Monday and his word pictures of how a great work began in North Honan were much appreciated. When he was leaving, the Doctor said how much he had enjoyed his visit to the Crows' Nest Pass, as much because of the kindness of the people as of the grandeur of the hills.

In the old days, knees were heard, but never seen.

The spinster's motto: "Look before you sleep."

Mr. W. H. Moser has opened violin classes at Macleod.

Tuesday next will close the trout fishing season in Alberta.

When a man sings his own praise it is very likely to be a solo.

A woman's complexion is divided by her nose, which is the true accent.

Dominic Sartoris, brother of Councilor Mark Sartoris, left this week on an extended visit to Italy.

Newfoundland's annual grant for education is now upwards of \$930,000. In 1943 the grant \$21,000.

Oiga, eldest daughter of Mr. and Mrs. Max Belecky, has taken up teaching at Wardner, B. C.

Mrs. G. M. Bond has returned to Blairmore, following a vacation, and has resumed her classes in piano.

A meeting of the L.O.D.E. will be held on Monday, October 14th, at 7:30 p.m. in the Greenhill hotel parlor.

E. J. ANDERSON, B.Sc., ophthalmic specialist, will be at the Blairmore Pharmacy on Saturday, October 12th.

Mrs. W. A. Ross, of Fernie, accompanied Mr. and Mrs. J. Chardon and Mrs. P. Chardon to Calgary last week.

Jack Miner, the noted Canadian naturalist, will lecture at Lethbridge on Monday next, afternoon and night.

Prohibition in the United States is now said to have been started as a joke. By someone with a dry sense of humor, we suppose.

Some of those who took the aeroplane rides on Sunday will never be able to say that it's the first time they have gone up in the air.

The members of the local lodge of Pythian Sisters will hold a Halloween whist drive and dance in the Lodge Hall on the night of Wednesday, October 30. Admission 50 cents. Keep this date open and look forward to a real good time.

J. A. Kerr and family have moved from the McLeod residence to the Pozzi bungalow at the corner of Fifth Avenue and Dearborn Street. James Milne and family, new arrivals from Taber, have taken up residence in the McLeod house.

A few days ago a sheik and a flapper were enjoying a ride along the prairie highway. At a time when the sheik's spare arm was hugging too tightly, he yelled "Break!" He applied all breaks. The remains were later gathered up and buried, without ceremony.

A case against a Chinaman for having opium in his possession, heard at Fernie recently, practically satisfied the court that the information resulted from a frame-up, the informant having just become peeved with his fellow celestial after many years of good friendship.

During the past week two new boilers and two new electric coal cutting machines have arrived here and work is being speeded up to have them installed before the cold weather sets in. This new equipment is a splendid addition to the company's operating machinery, and has been made necessary by the growing demand for McLeod River coal.—Mercoal Notes in Edson-Jasper Signal.

Mike was sinking rapidly, so the priest was summoned. "Mike," said the priest, "while you have the chance, you should renounce the devil."

"Well, Father, if I'm as bad off as that, it's no time to be making new enemies."

First merchant: I have a bookkeeper in my office who has gone gray in my service.

Second merchant: That's nothing, old lad. Miss Smith there has gone brown, blonde and Tidian red in my service.—London Passing Show.

Are You Paying Too Much

For Your Whistle?

BENJAMIN FRANKLIN as a small boy was so eager to own a certain whistle that he gave all his pennies for it—and then found it wouldn't blow!

Just so, rich foods keep you poor—and then don't nourish. For your health's sake, cut down on them and eat

MOTHER'S BREAD

The loaf at once a luxury and an economy, makes you feel you are living like a prince—even when it cuts your food-bills.
